LLC «Production and commercial firm «Politara»

PE «Oniko» firm»

LLC «Production and commercial firm «ADI»

TMC «Vlad»

LLC «Perspectiva-Slavutych»

LLC «Promkomplekt»

Working population:

men - 4344, women - 3553

Have higher education - 84% of working
population

The victims of the Chernobyl accident were 7759 people

An average salary of employees of ChNPP - 14 000 UAH. (\$ 540)

The average salary of the city's residents is 10,800 UAH. (\$ 415)

An average salary in the IT industry 26 000 UAH. (\$ 1,000)

Available space and investment property

Офісних приміщень – 3 400 м²

Будівель індустріального використання – 22000 м²

Площі індустріального використання – 215 га

Земельні ділянки – 830 000 м²

Об'єкти нерухомості – 64136 м²

Slavutych development is focused on Chernobyl Nuclear Power Plant as a unique place for the embodiment of an unprecedented and high-tech projects as New Safe Confinement, the repository of spent nuclear fuel, Liquid Radioactive Waste Remediation Plant.

Private company **“Solar Chernobyl”** building a solar power plant that will produce 1024 MW of electricity per year on CNPP territory.

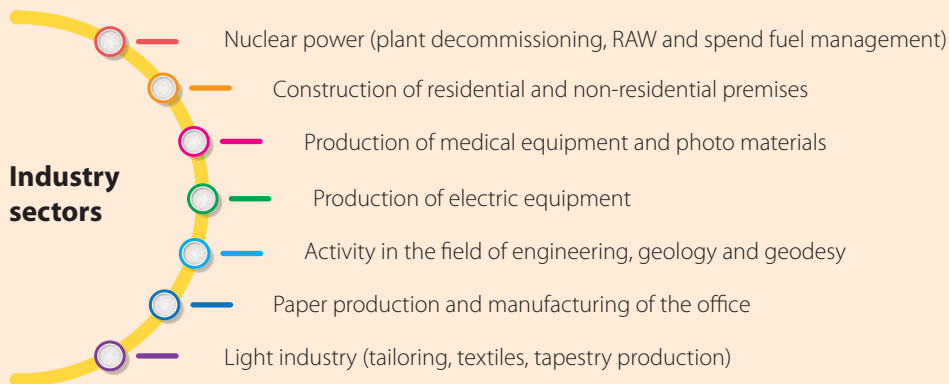

**Mayors for
Economic Growth**

Slavutych is a signatory of EU Initiative
«Mayors for Economic Growth»

The independent division of the State Enterprise "National Nuclear Energy Generating Company" "Energoatom" – "Atomremontservis" provides the service of repairmen to all Nuclear Power Plants of Ukraine.

The city is open to the Ukrainian and foreign IT industries: widespread fiber optic and WiMAX coverage, practically 100% households have access to the Internet, availability of a large number of office space and the demand of the population for smart technologies make the cozy and compact city ideal for the placement and development of companies in this area.

**Covenant of Mayors
for Climate & Energy
CoM East**

Slavutych is a Signatory to the Climate and Energy Covenant of Mayors. The Sustainable Energy Development Plan of Slavutych is in action

**– 40% CO₂
until 2030**

The largest boiler-house in Ukraine with a capacity of 10, 5 MW in operation in Slavutych

Slavutych is...

recreation and tourism

The Slavutych region is interesting in historical, ethnographic and architectural aspects. ChNPP - Slavutych – Chernihiv - Lyubech travel cluster is in action: 50 km to Chernobyl and Chornobyl NPP, 33 km to the ancient historic Lubec and 56 km to the medieval Chernihiv with architectural monuments of the Kievan Rus period.

1 hotel
3 hostels
1 country estate for recreation
10 restaurants / cafes
5 conference halls

Every year the International Film and Urban Festival "86", the International Festival of Children's Democracy, Television, Press, and Art "Golden Autumn of Slavutych" are held in Slavutych.

Slavutych is an incarnation of unique, environmental and comfortable for living architecture. That's comfy housing for inhabitants and an outstanding place for tourists around the world. Fresh air, high level of infrastructure and absence of public transport positively affects standards of living.

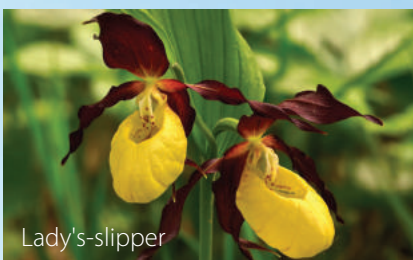

Unique flora and fauna

In the forests that surround the Slavutich with a kilometer long circle, you can find: hare, fox, marsh turtle, wild boar, elk, roe deer, raccoon dog and many others.

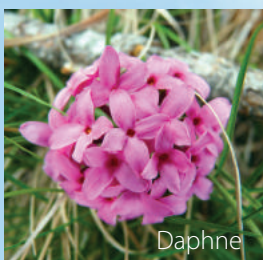

Birds: owl bearded and owl ear, large white heron, gray and black heron, bastard bird, hoopoe, and near the Dnieper you can see the kingfisher.

Some of these animals and birds are rare.

In the rivers and lakes of the area there are about 70 species of fish, including those on the verge of extinction.

Lady's-slipper

Daphne

Blueberry

Strawberry

Mushrooms

Green, industrial and extreme tourism are developing here. Gathering Mushrooms and berries, fishing and hunting. The existing recreation zone is a harmonious combination of pine and pine-oak forests with rich grass meadows. The combination of Dnipro River and small natural water reservoirs creates various flora and animal world.

Roe deer

Owl
bearded

Bobcat

Kingfisher

Wild boar

Hoopoe

Slavutych is a town of new ideas

Slavutych needs a new solutions!

The development of the city lies at the crossroads of technology and modern man's needs.

Slavutych is a perfect place for scientists, programmers, artists, and activists who have innovative ideas developing them in projects.

Because an idea is the most valuable commodity in the world!

We look at energy at a new angle. The city needs new energy. The city's new energy is an idea. Slavutych is a town of new ideas

Slavutych is a magnet for the initiative, creative, active, innovative and purposeful people with new ideas.

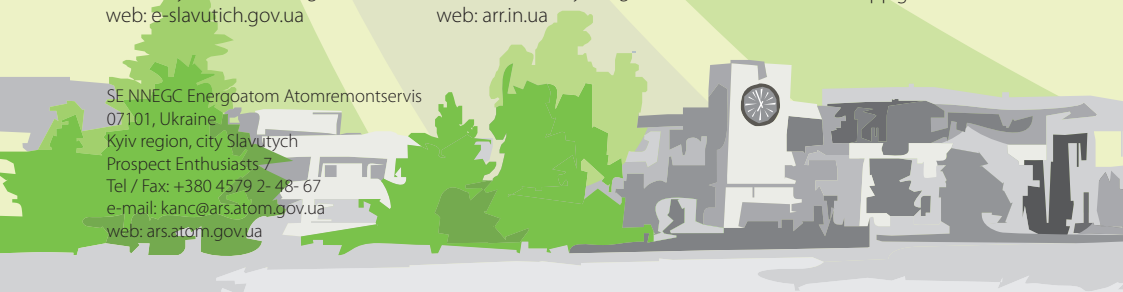

The city is already embodying these words in its actions and striving to become a platform for the implementation of ideas and initiatives.
